OFFER VALID FROM 1ST APRIL TO 30TH JUNE 2026

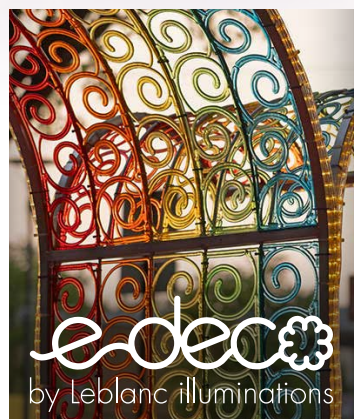

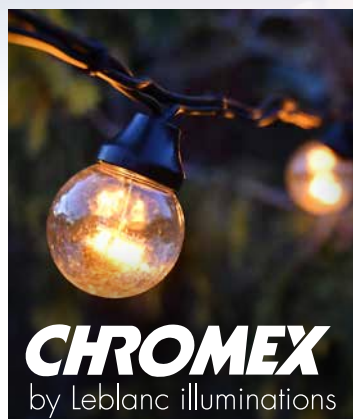

WITHIN THE LIMITS OF AVAILABLE STOCK

Leblanc
illuminations

Our brands

Professional-quality illumination equipment

- A French brand specialising in electric cables and string lights since 1943.
- Lighting equipment for cities and professionals.
- Reliable, high-tech, and easy-to-use products.
- Carefully designed with low energy consumption

Daytime decoration

- Daytime decorations that do not use electricity.
- Manufactured in-house using 3D printing.
- 4 materials and 14 colours for maximum creative freedom.
- Bio-based, recycled, and fully recyclable materials..

Creative connected lighting decorations

- String lights controlled via smartphone.
- Smart scanning of each LED using the smartphone camera.
- Wide range of customisable effects (colours, speed, animations).
- Design of personalised animations.

Watch the video

Dynamic architectural lighting

- French brand dedicated to enhancing buildings.
- Architectural lighting solutions: bars, spotlights, projectors, gobos.
- Over 30 years of experience in sustainable, colourful projects.
- Comprehensive support in bringing your projects to life.

Learn more

Join us

across our social media channels, where we regularly share content that captures the **unique spirit of Leblanc illuminations**. We've recently joined **TikTok**, a platform where you can discover our **original, creative, and playful videos**. Immerse yourself in our quirky universe and be inspired by our vision!

- Expertise and achievements
- Reports and interviews
- Twinkly and e-deco

Our Commitments

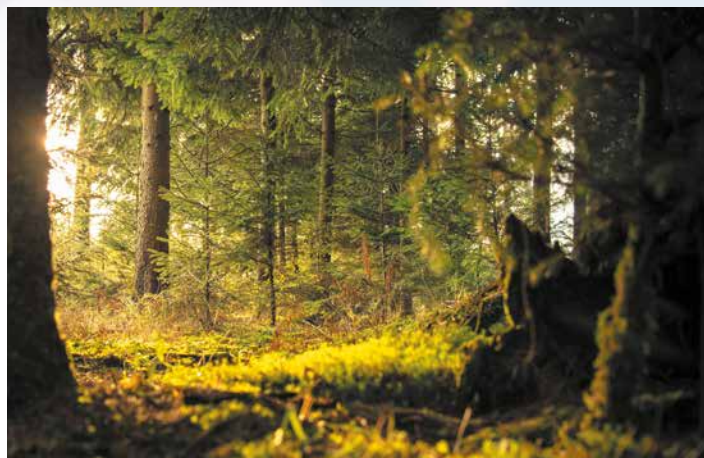

A sustainable and recognized commitment

For several years, we have placed sustainable development and environmental responsibility at the heart of our strategy. Aware of social and ecological challenges, we work every day to improve product quality, reduce our environmental impact, and ensure customer satisfaction.

Leblanc illuminations is the only French manufacturer that is :

- ISO 9001 certified
- CSR 26000 certified
- A WeForest partner
- A member of the Coq Vert community
- Manufacturing in France & Europe

Our ambition is clear: to combine innovation, quality, and responsibility to create a more sustainable and brighter future together.

We are proud of our labels!

The best energy is the energy we don't use

- **An energy-saving approach**
We advise local authorities and professionals on how to reduce their energy consumption. Thanks to LED technology, 100% of our decorations enable a reduction of more than 90% in electricity consumption.
- **Innovative solutions to optimize consumption**
Our remote control unit, developed in France, allows decorations to be lit only at key moments, offering optimal control and significant savings.
- **Eco-Responsible manufacturing**
Designed in-house, our decorations are based on French expertise and an eco-responsible approach: recycling, reuse of materials, and responsible waste management.

100%

of our decorations use **LEDs**

which considerably reduces power consumption over traditional bulbs.

The **ANIMATIONS** of our decors
(glittering, flashing, colour change...)

reduce their use time and your electricity consumption.

RECONDITIONED decoration = second-hand decoration, in **PERFECT WORKING ORDER.**

Globes

RECONDITIONED LED DECORS

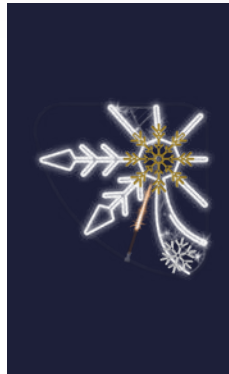

Outdoor 230V decorations, delivered with plates and power cables, without baubles, bulbs and minidroplight.
